

CHANDELIER

AIC-8

The Chandelier is a modular lighting element that can be hung from ceilings or indoor structures to create a colorful LED cloud. Up to 32 spheres can be connected to Astera's AC3 controller which enables a convenient control of each individual globe over Art-Net, DMX or Astera's RF Remote Control. Power supply and control protocol are installed in thin USB cables so this solution requires minimum space and wires.

TECHNICAL SPECIFICATION

Illuminants:	18 LEDs
Total LED power:	1.5W
Current:	40mA
Total Brightness:	81 lm
Input voltage:	1.3 ~ 1.5V
Spheres /controller:	32 spheres per controller
Cable length:	1m (other sizes on request)
Housing:	translucent glass with aluminum cap
Diameter:	AIC-8 Ø80mm (Ø 3.15")
Weight:	0.220kg (0.48lb)
Environment:	Indoor
Included:	LED sphere, 2m extension cable, ceiling bezel

REQUIRED CONTROLLER

AC3
