RF Controller	W-DMX Compatible	Control Entire Range	Free App Updates
CE Approved	Rubber Casing	Li-Ion Battery	1 Year Guarantee

### AsteraTouch™

The most advanced controller for wireless event lights is designed for quick and intuitive event setups. The AsteraTouch™ lets you easily target selections of lights, launch programs and effects, customize and store these effects before an event, and target different groups, sets and chains of lights all at the same time.

A seven inch touchscreen ensures that every function is easily accessible and important parameters are always in view. Most importantly, the AsteraTouch™ tablet can be effortlessly upgraded with new features via the internal Wi-Fi. For those users familiar with DMX, the AsteraTouch™ is compatible with our wireless-DMX transmitter, which means that you can target your lights wirelessly and control them via DMX.

### AsteraTouch™

### Technical Specification

The AsteraTouch™ is a touch screen hand-held controller able to control unlimited Astera lights within range.

<b>Display:</b>	Multi-Touch Screen
<b>Battery:</b>	Rechargeable Lithium Ion Battery
<b>Nominal Capacity:</b>	2600mAh
<b>Nominal Voltage:</b>	3.7V
<b>Charger Output:</b>	5V-DC-2A
<b>Battery Runtime:</b>	10 hours (standby)
<b>Wireless Module:</b>	868MHz sender/receiver (EU) 902-928MHz sender/receiver (USA)
<b>Control Limitation:</b>	Controls an unlimited amount of wireless Astera products
<b>Range:</b>	300m
<b>DMX Capability:</b>	Wireless DMX with Astera's W-DMX Transmitter (ART3)
<b>Wi-Fi:</b>	Yes
<b>SD Card Slot:</b>	Yes
<b>Unit Size:</b>	L225mm x W160mm x H25mm L8.8" x W6.3" x H1.0"
<b>Weight:</b>	0.650kg 1.4lb
<b>Housing:</b>	Silicone Rubber
<b>Environment:</b>	Indoor / Outdoor
<b>Languages:</b>	English, German
<b>Programs:</b>	72 Customizable Programs
<b>Effects:</b>	20+
<b>Functions:</b>	Color mixing, Color calibration, Group addressing, Chain addressing, Type addressing, Serial Number addressing
<b>Accessories:</b>	Charger, Shoulder strap

### AsteraTouch™ Uses
